

**Title I Lesson Plans: Mrs. Shanahan rshanahan@saintangela.org**  
**Grade 3**  
**Week of May 4th-8th, 2020**

Dear Parents, Caregivers, and Scholars,

Thank you to those of you who are helping your children send their assignments to me! Please send **everything** you can! It is important that the children keep receiving instruction and completing assignments; and this is also teaching them responsibility and independence!

I will again be creating packets for each child with hard copies of the assignments for the following four weeks; this week, 5/4 and the next three, 5/11, 5/18, and 5/26. Again, these packets will be in the bin labeled 3rd grade, Mrs. Shanahan, in the lunchroom. Each packet will have your child's name on it.

I will still post on the weebly site each week if you cannot get to school to pick up the packet. The highlighted information below must be emailed to me. Watch the video clip for examples!

### **Reading**

#### **1. *Comprehension: Compare and Contrast a Fiction and a Nonfiction Passage on the Same Topic.***

\*\*\*The nonfiction article is called "Daylight Savings Time".

The fiction story is called "An Hour Late".

Read each story and answer the 4 questions for each passage.

Last, compare and contrast the two and answer the 4 questions on the last page.

There will be a total of 12 questions that need to be answered.

Please answer in complete sentences written neatly!

#### **2. *Structural Analysis: Syllables***

I will go over the various rules for dividing words into syllables on the video. We will do pp. 12 and 13 together. The scholars are always welcome to turn these in.

### **Math**

#### **1. *Computation: Basic Facts***

Please continue to practice your basic facts. Log in to xtramath 2 times each week. Practice flash cards!

#### **2. *Concepts and Applications: Number Models for 2-Step Number Stories***

I will go over this on the video clip. We will do Sheet 1 together.

\*\*\*Your assignment will be to complete the 10 problems on p.4.

# Daylight Saving Time

S14  
3-4

It's time for Daylight Saving Time! This is the time of the year when people set their clocks ahead one hour. On the day that Daylight Saving Time begins in the spring, people are actually losing

one hour of their day. However, for the months that follow this day, the evenings will have more daylight and mornings will have less daylight. This time change was created to move one hour of daylight from the morning into the evening hours.

There is a popular phrase that helps people remember what to do on these days of the year. "Spring forward and fall back", means we move our clocks forward an hour in the spring and backwards an hour in the fall. Daylight Saving Time starts on the second Sunday in March and ends on the first Sunday in November. This gives a long span of time to have more daylight through the evening. At around 2 a.m., the clocks will then roll back one hour. There are two states in the United States that do not practice Daylight Saving Time. Those states are Hawaii and Arizona. They choose to stay on standard time for the entire year.

Technology has made Daylight Saving Time much easier for many people. Some phones and clocks are powered by satellites, which automatically update the clocks. Clocks that are not connected to a satellite have to be changed by hand, which can be annoying to many people.

# Nonfiction Questions

1. Identify the purpose of Daylight Saving Time.

---

---

---

2. When does Daylight Saving Time begin?

---

---

---

3. Explain why Daylight Saving Time might be annoying to some people.

---

---

---

4. Identify one thing you have learned about Daylight Saving Time.

---

---

---

# An Hour Late!

"Ben! Don't forget to move our clocks forward one hour!" his mom yelled from the kitchen.

"Okay, mom," Ben yelled back. He never really understood why the clocks had to be changed twice a year.

Ben decided he would change his clocks as soon as he finished the current level of his video game. As soon as he finished, though, he went straight to bed.

The next morning, Ben heard his alarm go off and got up and got ready for school. He heard his mom's alarm go off, too. He knew he needed to wake up his sister, so that she could also start getting ready for school. He packed up his lunch and picked out his school clothes, then headed down to his mom's room to tell her he was ready. When he saw his mom, he began to worry. She was running around her room saying, "We're late! We're late!" Ben could not figure out what was going on.

"Mom! What are you talking about?" he asked. His mom stopped running around for a minute to look at Ben and tell him that he forgot to change all the clocks. Ben froze! He completely forgot to after this video game. His mom had even reminded him before bed. That was his one job. He felt sad, but knew he learned his lesson. He had never been late to school in his life. Since he didn't follow directions, he didn't have perfect attendance anymore.

Ben's family rushed out the door and headed to school. He wondered if he was the only family that would be late because of Daylight Saving Time.

# Fiction Questions

1. What choice did Ben make at night that made him late for school?

---

---

---

2. How did Ben feel about Daylight Savings Time?

---

---

---

3. Identify what facts you read in the text about Daylight Saving Time.

---

---

---

4. What lesson did Ben learn?

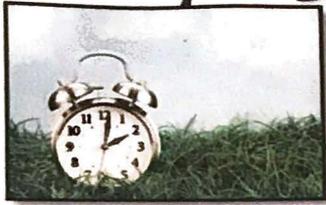

---

---

---

# DAYLIGHT SAVING

## TIME

1. How are the two passages similar?

---

---

---

2. How are the two passages different?

---

---

---

3. Write one thing you've learned about Daylight Saving Time from the texts.

---

---

---

4. Which text did you like reading better? Why?

---

---

---

Solve each problem.
